TUESDAY EVE., MAY 5, 1885.

The Old and the New. The close of an administration and the beginning of a new one, in a city like Decatur, is always a subject of interest, but there never has been a change fraught with more impor-

tance than that which took place last night. It is altogether too soon to make any prognostications with reference to the new administration, but it did one thing at the outset which shows that it has mettle enough to grapple with any question that may come before it; we refer to the refusal of the council to grant licenses to certain persons to establish saloons. It was a good start, and if the council will preserve the same independence of action it will receive the plaudits of the people. The olose of the administration of Mayor Chambers, however, furnishes a good opportunity for something in the way of retrospect, and while it is the most natural thing in the world for people to find fault with their rulers we cannot but think that a calm and thoughtful examination of the events which mark the course of Mayor Chambers' administration will result in the conviction that it has accompliehed much that has been of lasting benefit to the city. The farewell address of the late mayor, which will be found on our fourth page, sets bond cases," some of which were reforth a few of the notable events of his administration. The list of permanent improvements enumerated by the mayor as accomplished during the two years just closed will show that the expenditures made resulted in something more than more temporary helps, and that the permanent gain to the city has been such as the an and mayor and council may point to with pride. In the matter of sidewalks especially the council is to be congratulated on the progress made. Instead of the broken and dilapida ted wooden walks of a couple of years ago we have now miles of permanent brick pavements, and the most remote parts of the city can now be reached with reasonable contfort. It is true that the sidewalk policy of the council has caused a great deal of complaint, and in some cases has worked positive hardship, but these are incidents inseparable from any policy. Sidowalks are a necessity, and no plan for building them ever devised in the history of the city has accomplished so much. The policy of the late administration with reference to this question has at last been generally acquiesced in, and it is to be hoped that it will not be disturbed, for it is working with eminent success. The old conneil and Mayor Chambers are entitled to

good for the city? Two Dangerous Seasons Spring and full are times when so many

accomplished more of permanent

cessful carrying out of a scheme that

people get eick. The changes in the weather are severe on feelde persons, and even those naturally strong are apt, they say, "to be feeling ruserable." it they are just in condition to be about down with some kind of fever. A bottle or two of Parker's Tonic will invigorate the digestion, put the laver, kidneys and blood in perfect order, and prevent more serious attacks. Why suffer, and perhaps die, when so simple a medicine will save you? Good for both sexes and all ages. m1-w&deodly

Vice President Hendricks and he rest of the Presidential party returned to Washington from Gettysburg airlylug scertained that when the train bearing the President and party from Gettysburg la, a man standing near the Mirack fired three pistol shots at the cars. Those who witnessed the firing declare that there can be no mistake about the atention of the man to shoot into the gots fired maintain that the man was evng at a mark, or perhaps intending to salute the Presidential party.

A representative of the United Presnade diligent inquires among those who were upon the train, and found there were few who knew anything of the fring. One gentleman was interviewed, lowever, who said that he saw the last shot fired, but he was unable to say posttive y whether or not the marksman aimed at the train. The shoot-ing occasioned considerable excitement though those who knew of it. It is thought that the President knew nothing of it. When the train stopped at Hanover, the President, in company with Vice-President Hendricks, shook hands and Mayor Chambers are entitled to with the throng which surrounded the the thanks of the people for the suc-

The Militia Sent to the Scene of the

Disturbance, Assaulted by the Mob

LEMONT, ILL., May 4.—Since the bat tle this forenoon in which two strikers were instantly killed and seven wounded including a woman, two of the wounded men have died. The streets are quiet and the troops are encamped in a commanding position with four cannons and one gatling gun. They have their picketi out, and guards are patrolling the town At this hour, 9 p. m., there are no appre hensions of further trouble to-night. The battle in the forenoon was stub born and desperate. The troops had t

fight every inch of their way through the town. About two and a half miles south oi Lemont the initiary alighted, being unable to proceed further on account of the immense guthering and the evident hostility. The militia marched up the main road, while the battery made a detour through the country at a rapid pace and took a position on top of a hill over-looking the depot and commanding the street. The militia was led by Company B, of Joliet. Colonel Bennett command ed the movements. As the column came toward the city

the strikers capled it, and soon the march

of troops became impeded by the crowd. There were angry shouts, wild gesticulations and general disorder. As the depot was reached the crowd became demonstrative. Several stones were thrown these missiles. The order was given and was promptly Several men were seen to drop, while the crowd uttered curses loud and deep. Women were or-defed under cover and compelled to go indoors at the point of the bayonet to protect them from exposure to the bullet The strikers, about one hundred in number, then retreated up the lall. Stones were still being thrown, and the troops continued their fire, several falling as il continued. Some of the militia had han b to-hand encounters with the strikers and not less thin a dozen men wer prodded with bayonets or knocked on by the butt ends of guns. After about twenty minutes' fighting, the mob was practically dispersed. The firing closed, and too militia, reinforced by the battery with sixty men, murched and counter murched several times through the town horoughly cowing the outward mani iestations of resistance.

No more opposition appearing, the soldiers marehed about two miles north of the city, where camp was pitched. The names of the dead are. Jakob Kajawa, who leaves a wife and two children, and Andrew Stelter, unmairled. It is reported two of the wounded have since died. The woman was struck or the head with a bayonet during the melec, when the strikers and soldiers had a hand to hand conflict.

By what can be gathered from outware appearances the strikers are organizing for an attack on the camp of the soldiers ahead of Prima Donna, but the judges gave the race to the latter because after they had taken their positions in the straight Uncle Dan crossed to the inside ent is amply able to cope with any dem instration that may be made.

OBJECT TO STARVING. Another Big Coal Miners' Strike About

to be Inaugurated in Ohio. CANTON, O., May 4 .- A strike of 260 miners along the line of the Valley Railway in the Cannotton district, is the beglinning of mining troubles which, it is feared, will result in the strike of 6,000 miners in the Cannotton and Tuscarawas Valley districts. The rate of fifty-live cents per ton in the Hocking Valley, established after the terrible strike there. has enabled operators to put coal in the Cleveland and other Northern Ohio markets, at rates which Tusc nawas and Cannotton operators cannot compete with when they pay seventy-five cents per ton, which has been the prevailing rate. Catarrh Remedy, for years made a stand-Consequently they gave notice of a cut to fifty-five cents a ton. At a convention pers of \$500 reward for a case of catarrh that he could not cure. The present pro-prietors have renewed this offer. All the recently held, President McBride, it said, advised the miners to accept, but no action was taken and on Saturday the 260 miners referred to, refused to work for less than the old rate. The operators advised to be used in connection with it. No catarrh patient is longer able to say "I cannot be cured." You get \$500 in here say that they will not only insist up-on a reduction, but if the men strike will not let them go in except at the same rates as in the Hocking Valley, fifty-five cents per ton. In that event the strike may be expected to be protracted, and exceedingly bitter.

season for signing contracts for crates has closed and the contract shows that 325 growers, representing 1,300 acres, bave contracted for 125,000 crates, or 3, 000,000 quart boxes. At the average price of \$2 per crate this will bring in \$250,000. Pickers will get \$60,-000, girls for making boxes \$1,800, crate makers, \$750, the Illinois Central Raiload, \$21,250, etc. Patches here are in size from a little garden lot to a forty-acre field, the latter being owned by Mr F. P. Miller. Most of the growers belong to the association of shippers, and the berries are taken care of by the associa-tion until they reach Chicago. Ewelling the List.

NEW YORE, May 4 .- The record of the injured at the First avenue and Thirtyeighth street fire to-day shows that two more patients died this morning, and that one has been discharged from Bellevue Hospital as cured. This brings the total number of dead up to ten. Th deaths to day were those of Mrs. Kate Koerner, aged thirty-eight, and Sophie A. Koerner, her daughter, aged fourteen. There are still eleven of the injured in the hospital, of the most of whom the physicians this morning spoke favorably. Again Postponed.

gregated, but the President, who was the enter of observation, sat in his car reading a paper, seemingly oblivious of the fact that a large crowd was gazing at him. At other points along the road crowds had assembled, but they only caught a gitmpee of the President.

At Hanover, Pa., there was a short de-lay, caused by the breaking of the driv-ing spring of the engage. Another en-gline was obtained and the train pro-ceeded without further incident to Gettyshurg, where it seemed that the entire population of the town and surrounding country had assembled to meet it. As salute was dred. Governor Pattison of Pennsylvania and Congressman Swope boarded the car, and after a few remarks by ex-Governor Curtin the crowd made an opening, and the President and party proceeded to carriages in waiting. party were then driven to the National Cometery, where Governor Pattison, In behalf of the State of Pennsylvania, made an address of welcome. Hon. Martin an address of welcome. Hon. Martin McGinniss, on behalf of the First Army Corps, responded.

Ex-Governor Curtin then addressed

the crowd, and reviewed the history of his connection with the war and the part Pennsylvania troops took in it, particu-larly in the battle of Gettysburg. After the exercises were over here, the President and party spent the rest of the afternoon in driving over the battle-field, visiting the points of interest, where the positions of the contending forces were. At six o'clock the President, Vice-President Hendricks and the remainder of the trendential party, started for Washington, evidently pretty well fagged out by their journey over the battle-field.

The Farewell and Inaugural Ad-

The city council was called to order at 3 o'clock, all the old aldermen and the newly elected members present; also the new city clerk and treasurer. Mayor Chambers presided, M. F. Kanan, mayor elect, occupying an extra chair at his left

The old council proceeded to dispose of unfinished business on the table, and Clerk Durfee read the minutes of the four meetings held during the month of April. While the reading was in pro-gress, the lobby filled up with spectators the crowd becoming so great that there were overflows into the wide hall and the marshal's office. In the crowd were no-ticed many who were chiefly interested in the all important question (to them) as to whom the new mayor would appoint to official positions. The reports of the city treasurer, city

marshal and superintendent of streets were read and referred. They will be found on the fourth cage.

Engineer Barnett reported that during April 35,859,821 gallons of water were

pumped at the works, and 175,047 pounds of coal used. The reports of the justices were read and referred to the city attorney.

On the petition of Walter Dillehunty, for a rebate of license money for 10 days,

the committee reported recommending its rejection. Adopted. O. E. Curtis & Co. claimed a rebate of \$30 for auctioncer's license, and the committee reported favoring the rejection of the claim. Ald. Muzzy moved that a rebate of one-balf the amount be made; seconded by Starr. Ald. Lake thought it improper to establish such a precedent. Muzzy's motion was lost, and the report

of the committee was adopted. The water committee reported favorably on the resolution to purchase boiler

eleaners. Adopted. The city attorney reported on the J. H. Durfee tax redemption notice, that the property is not taxable, and that the purchaser received no title as against the city.

All the bills having been read, the clerk nuounced that he had no more unfine'ied business on hand, when Ald. Lake asked for the ordinance affecting the loontion of new saloons. It was given to Ald. Gegerty at last meeting, and he was asked to produce it. Mr. G, who is chairman of the ordinance committee, stated that the ordinance was down in the fifth ward. Ald, Roberts offered a motion that

Gogerty produce the ordinance; seed nded by Lake. At the last meeting of the council the ordinance passed out of Go-gerty's hands and was laid over until the next meeting. Roberts made the point that under that action Mr. Gogerty had no right to the paper in question. Mr. Gogerty said it had been the custom of the aldermen, and particularly the chairmen of committees, to have access to and possession of papers; that he had it in his possession to show it to old and new

members.
Ald. Diehl offered a motion, seconded evening, from this date until further no-tice. mac-dlw by Shoemaker, that the ordinance be re-forred to the new council. Declared out

The mayor directed Mr. Gogerty to produce the ordinance when business was suspended, pending the production of the nissing doct ment.

As Gogerty went down the stairway he was heard to say that he would be back in a week. The mayor waited 40 minutes for the gentleman to return. He did not appear, and the mayor called the council

Ald. Lake offered a resolution that the adges and clerks at last city election be paid \$3 each. Adopted. The mayor remarked that Mr. Gogerty

had simple time to return, and while waiting he proceeded to read his farewell address, which will be found on the fourth page of this paper.
ACKNOWLEDGMENTS

Ald. Muzzy offered the following reso-Intion which was adopted:

Resolved, That the thanks of this counoil be extended to his honor, W. B Chumbers, retiring mayor. In our official intercourse, as well as in the private walks of life, we have ever found him the same urbane, patient and dignified gentleman and presiding efficial, cherishing those amenties which make pleasant efficial du

ies as well as in the ordinary walks o life. His interests in the future welfare of our city deserve the thanks of the council and the grateful remembrance of he people of our city.
Also the following, which was adopted: Resolved, That we recognize in the effi-cial carrer of C. M. Durfee, retiring city

clork the highest degree of perfection in official duty; that his faithful perform-ance of his official duties deserve the thanks of this council; that his kind, ur-bane and accommodating disposition has von a lasting remembrance in our heart-Also the following, which was adopted

Resolved, That the retiring aldermondrew Shormaker, J. O. Lake, J. Alexander, A. N. Diehl and T. T. Roberts deserve the thanks of this council and of the city for the faithful performance of their duties during their official career. Ald. Muzzy made general remarks about the official career of all aldermen and spoke of good work that had been done by the city fathers.

The mayor again stated that it appeared

useless to wait longer for Gogerty's return, whereupon Shoemaker raised a eerve you with flue groceries at low fig. after him. Shortly afterward Mr. Robures and deliver them to any part of the erts in stating that the council had been insulted by Gogerty's conduct, made motion that Roberts accompanied by the matchal be sent after Mr. Gogerty.

Ald. Diehl asked by what authority the gentlemen could bring Gogerty to the council. The mayor stated that there was

no authority to bring Gogerty back. Ald Shoemaker remarked that the counci had made a mistake in not setting a time for the return of Gogerty.

The question was called on Roberts

motion, and it was put and declared car-ried. There was a call for the ayes and nays. Ald. Roberts with consent of second, Ald. Starr, withdrew his motion and the matter was dropped.

The amendatory ordinance, the absence

of which caused the squabble, provided that where new saloons are located the applicant must first secure the consent of a majority of the property owners in any block, whose names must accompany the application for license. Had it been vo-ted on it would certainly have been dopted.

Richmond, Indiana, is a busy place, with its various manufacturing industries, and one of the busiest men in it is Mr A E Crocker, who is known throughout all Indiana as a prosperous red estate and Insurance mm He is a gentleman in middle life of great vitality, and of very active temperament. Over a year ago, owing to severe overwork and great exposure, he was suddenly prostrated with schatte rheumatism. To one of our correspondents, who visited him at his office a iew weeks ago, Mr Crocker told the story

of his illness and recovery.
Sud he "I had been working very much harder and more continuously than any man ought to work. I had been much exposed to the severity of the winter weather. My health had been so good that I was probably not as careful as I should have been, relying on my strong constitution to carry me through anything und everything. One cold day, list winter, I was unexpectedly taken with an stooping The prin extended rapidly stooping The prin extended rapidly through thish, stomach, head and brain The doctor who attended me, said it was remarkable case of relatic rhoumation. He give me a variety of medicines, the result of which was but alght and temporary relief. I suffered intensely, and was for a while last aside from business, and con-fined to my bed. My case was evidently one requiring more powerful and efficient remedy than the doc or had brought to "After some weeks of suffering, I saw

an idve tisement of Athliphoros venture, and supposing that anyhow it could not make me any worse than I was, I bought a bottle The effect of the first tow doses of this medicine was wonderful, Robot came almost immediately.
